A Different Discourse on Diversity

Equal Representation in Arbitration (ERA) is passionate about championing diversity and inclusion in arbitration. The Pledge has and continues to provide essential support to women in arbitration. However, we know diversity goes far beyond gender alone.

Today, the call for genuine inclusion is more urgent than ever, as recent global events threaten to undo the progress of past decades.

Join us for a candid and thought-provoking panel as our speakers share their experiences of diversity in arbitration. We will reflect on gender diversity, but also open the conversation to cultural and ethnic diversity, age, socio-economic background, health, and LGBTQ+ equality.

Please register for the breakfast event via the [McGrathNicol platform](#).
