Expertise

Transaction support
Fairness opinion and valuation services
Project advisory
Litigation and arbitration

Laure is currently a Senior Manager in the Singapore office of Accuracy. She has over 10 years of experience having worked in a variety of projects such as financial due diligence, carve-out, M&A, valuation, decision-making, modelling, project advisory and disputes.

Laure started her career as a financial auditor in the Paris office of Ernst & Young, where she was involved in engagements across a variety of sectors. She subsequently joined Accuracy Paris before moving to Singapore. She has been exposed to a broad range of engagements, including domestic and cross-border transactions, valuation and financial modelling projects for global companies and various stakeholders, and has supported various quantum experts in litigation and arbitration situations, in particular on matters involving lost profit assessment, valuation of shares or assets and quantification of losses on construction and utilities projects.

Laure benefits from a managerial and financial background and graduated in 2014 from HEC Paris, one of the leading French business schools.

Professional experience

2018 to present (6 years): Accuracy (independent firm specialised in corporate finance consulting) – Singapore *Senior Manager*

2014 to 2018 (5 years): Accuracy – Paris, France

Transactions and Investments

Selected examples of Laure's experience include:

- Various vendor assistances for a multinational group of energy and automation in the context of the carve-out of activities (energy equipment and industrial software): preparation of pro-forma financials, BP modelling, financial due diligence, assistance to negotiations, work on price adjustments, etc.
- Sell-side assistance (pro-forma financials, tax related valuation and price adjustment) on a transaction in Singapore (EV of SGD300m).
- Buy-side due diligence on a TIC business headquartered in India and operating in India, the Middle-East and Africa, in the context of acquisition by a multinational group of quality control and inspection.
- Extensive sell-side assistance and full-scope project audit for Orano in the context of its restructuring and negotiations with EDF, the French State and foreign investors.
- Other various buy side due diligences and vendor assistances in South East Asia and Australia, in various sectors including aerospace and defence, art handling and logistics, high-tech healthcare, etc.

Valuation and financial modelling

Selected examples of Laure's experience include:

- Fairness Opinion of a multinational holiday group in the context of a tender offer, including the implementation of a multi-criteria valuation approach and the writing of a full report to be issued to the French Financial Market Authority ("AMF").
- Valuation of various companies and assets across Europe, Asia and Australia.
- Valuation of brands and other intangible assets in various contexts (purchase price allocation, legal reorganisation, tax litigation, etc.)
- Elaboration of full models of financial forecasts (including when relevant the impact of synergies, acquisitions, reorganisations, etc.) and/or critical reviews of management's business plans for decision-making and/or valuation purposes in various sectors and geographies.

Litigation and arbitration situations

Selected examples of Laure's experience include:

- Preparation of expert report for the quantification of damages in a construction dispute concerning the upgrade of an oil and gas refinery in Africa. The quantum of damages included additional works, construction delays, productivity losses, etc.
- Damages assessment in the context of a dispute on a construction contract relating to a nuclear power plant in France.
- Preparation of quantum expert report on a dispute relating to the construction of an energy asset in Myanmar.
- Preparation of quantum expert report on a dispute relating to the valuation of a portfolio of renewable assets in Greece.
- Quantum due diligence in the context of a dispute relating to the construction of a LNG asset in Brunei.
- Quantum assessment in relation to the construction of a transportation infrastructure in Vietnam.
- Assisted quantum expert in a dispute relating to the valuation of a telecommunication business in South-East Asia.
- Assistance in various other disputes and arbitration cases in energy, utilities, construction and other sectors in Europe and South East Asia.

Project advisory

Selected examples of Laure's experience include:

- Full-scope project and cost review of a redevelopment project in the hospitality sector in Singapore (ca. SGD100m).
- Project and cost reviews on a number of construction projects, including nuclear power plant and renewable energy assets in France.

Fraud and forensics

- Assistance to a multinational group on a large scale and cross-border fraud investigation.
- Compliance reviews on a supplier of a large aerospace and defence group with activities in various South East Asian countries.

2013 (6 months): Accuracy – Paris, France

Financial Analyst

- Took part in various financial advisory assignments, incl. financial due diligences, financial modeling and corporate valuation

2012 (6 months): Ernst & Young – Paris, France

Financial Auditor

- Worked on diverse financial auditing assignments within the Middle Market Office department
- Performed process reviews and audit tests on different sections including cash, financial debt, accounts receivable, accounts payable, inventories, etc.
- Among the main clients were: France Telecom, Alma Consulting Group, Lecta Europe.
